Tanjung Pinang City, Riau Islands, Indonesia | 081534891450 | alfianseftina@gmail.com

A sixth-semester student in the Informatics Engineering program at Raja Ali Haji Maritime University with a strong interest in software engineering. I have experience working on various academic projects related to database design and management, as well as web application development, which has honed my analytical and problem-solving skills. I am committed to continuous learning, adaptability, and making the best possible contributions within a professional team environment.

Education

Raja Ali Haji Maritime University

INFORMATICS ENGINEERING (Semester 6) • 2023 – Now

I am an informatics engineering major at Raja Ali Haji Maritime University, specializing in Software Engineering

Academic Project

Design and Implementation of a Web-Based Information System “Kedai Kopi Batman Batu 9”

Course: Software Design and Implementation | Sep 2025 – Dec 2025

- Developing a web-based information system for digitizing transactions (POS) and managing raw material inventory
- Designing a structured database and implementing automated inventory calculations based on transactions
- Developing real-time sales reporting features to support monitoring and decision-making
- Contribute to UI/UX design and system development using Flask, MySQL, and Docker

Design and Implementation of a Faculty Portfolio Web Portal

Course: Distributed Systems | Sep 2025 – Dec 2025

- Developing a web portal to display faculty members' profiles, publications, and academic work in a structured and easily accessible manner
- Design and manage a database to store portfolio data, including research and community service records
- Building CRUD features to facilitate dynamic data management
- Implementing a responsive and user-friendly interface to enhance the user experience

Organizational Experience

Informatics Engineering Student Association (HMTI)

Member of the Press and Information Division (2024) | Secretary of the Press Division (2025)

- Manage and disseminate information about the organization's activities through social media and internal communication platforms
- Contribute to the creation of publication content such as posters, documentation, and event coverage
- Handling the division's administrative tasks, including meeting minutes, activity records, and work reports as secretary

- Coordinate with the team to ensure that accurate and timely information is provided to members and the public

Skills

- Hard Skills: Database management (MySQL) and Web development (HTML, CSS, and JavaScript)
- Soft Skills: Teamwork and strong communication skills, analytical thinking, and systematic problem-solving
